

Date: 11th August 2021

To Whom It May Concern

This is to certify that Akshat Gupta worked as a Software Development Intern at Josh Talks from 1st June 2020 to 10th August 2021.

During the Internship period, he worked on various projects under the Josh Talks Umbrella namely:

1. Incharge of making the mobile first Josh Skills web portal to improve the brand's SEO & online presence for their online courses.
2. Incharge of maintaining Josh Skills, Josh Kosh and DigitalBeti.
3. Incharge of managing junior interns, delegating work and coordinating with all teams.
4. Incharge of developing and managing the Josh Recruitment Portal.
5. Revamping the existing version of JRT completely from scratch for a better optimised version 2.

We found that he always completed his work on time and was ready to make the changes at the oddest of hours with the strictest deadlines while simultaneously managing College. He is an individual with a strong sense of responsibility, he also got along very well with his colleagues.

In conclusion, I would like to express that I am certain Akshat would make an invaluable asset in all his future roles. I am confident he will surpass your expectations and I wouldn't hesitate in recommending him further.
